

K-5 Study Skills Program Registration

Program Description

The study skills program emphasizes academic support to promote success for students in elementary school. The program will provide educational opportunities that develop academic skills and study practices that will ensure long term success. Students will bring content area material from their other courses and learn to apply techniques and study skills appropriate to their ability and the content material. This course provides instruction on study habits, time management, organization, note-taking, test-taking, active listening, oral and written communication, and learning strategies.

This is a graded course that will be offered each semester daily for 30 minutes to students in grades K-5 after school.

Student Name: _____

Address: _____

Email Address: _____

Phone Number: _____

Parent/Guardian Name: _____

Student's Current Grade: _____

Student's Homeroom Teacher: _____

Parent Signature: _____
